

Rachael Parker

Fire Function are amazing. They catered our wedding! The food was excellent. They were amazing because of what they offered. They were able to work with our budget and got us to be able to afford food for all eaters. We had a lot of vegetarians at our wedding coming from India and it was essential that we have meat and no meat dinners. They were able to provide a polenta lasagne which was amazing!!!! All the veggies in the group and non veggies told us it was excellent. And before we agreed on the polenta, George was happy to make beans with no cheese if we had vegans. These people were amazing. We also had grilled veggies and all veggie appetizers and then he slammed it with the tri tip and chicken for all... it was amazing!!! They did all this without breaking the bank. Ohh... and we needed bartenders as we were bringing our own alcohol... no problem.. George got us two for 100.00.. we just needed to tip. George... your awesome:) And Fire Function staff.. you are just beautiful.. we had such a windy day and yet you made everything work.
